EXPERIENCE

- **Freelance Front-end Developer** Jan. 2024 – Present
Self-Employed Remote
 - Develop modern, responsive websites using Next.js, Tailwind CSS, and Sanity CMS, providing clients with seamless content management capabilities
 - Communicate with clients to gather requirements, provide updates, and ensure satisfaction with final deliverables
 - Demonstrate strong time management, problem-solving, and organizational skills while juggling multiple projects
- **Sales Associate** Jun. 2024 – Present
Under Armour Ontario, Canada
 - Deliver personalized customer service while maintaining in-depth product knowledge across multiple categories
 - Collaborate with team members to meet sales targets, manage inventory, and maintain visual merchandising standards
- **Web Developer Intern** Apr. 2025 – Jul. 2025
TDM Web Solutions Remote
 - Implemented modern front-end features using Next.js, React, and Tailwind CSS to enhance user experience
 - Participated in client meetings to gather requirements and translate design mockups into functional interfaces
 - Utilized version control (Git) and agile methodologies to support project development and deployment

PROJECTS

- **TDChurch Website** | *Next.js, React, Tailwind CSS, Sanity CMS, Vercel* Aug. 2025 – Present
 - Built a modern church website using Next.js and Sanity CMS, enabling staff to easily manage content through an intuitive headless CMS interface
 - Developed dynamic pages for service times, events, and sermons with integrated media support
 - Implemented responsive design with Tailwind CSS for a clean, welcoming experience across all devices
 - Deployed and managed the site on Vercel with custom domain configuration and optimized performance
 - Collaborated with church leadership to align the site with branding, messaging, and community engagement goals
- **Build With Dream** | *Next.js, React, Tailwind CSS, Sanity CMS, Vercel* 2023 – Present
 - Developed a modern contractor showcase website using Next.js and Tailwind CSS, featuring a clean design and intuitive navigation
 - Built dynamic project galleries to highlight completed work and services offered
 - Implemented streamlined contact forms and quote request functionality to simplify client communication
 - Integrated Sanity CMS to enable the client to manage portfolio content and service offerings independently
 - Deployed on Vercel with optimized performance and responsive design across all devices
- **Galore.YYZ Shopify Storefront** | *Shopify, Liquid, HTML, CSS, JavaScript* Jan. 2025 – Mar. 2025
 - Transformed client design concepts into a fully functional and visually engaging Shopify storefront
 - Developed custom themes using Shopify's Liquid templating language along with HTML, CSS, and JavaScript
 - Optimized for mobile and desktop, ensuring cross-device compatibility and brand consistency
 - Improved customer journey through thoughtful UI/UX design and technical implementation
 - Collaborated with the client to ensure the store aligned with their brand vision and goals
